

# White Paper

<https://www.zilladoge.com/>

Zilladoge is the first project to encompass all of the loved and required features to a successful and leading project in the DE-FI space. Zilladoge incorporates the favored Memecoin characteristics whilst providing a impressive list of utility aspects such as NFT's and P2E Game, but the list carries on with its holders benefitting from the BNB bonus. This project is a community driven token, with a strong experienced team with the focuses on pushing the boundaries on what one project can achieve.

1

## **Governance**

ZillaDoge holders can participate in proposing, voting, managing projects in the ZillaDoge ecosystem.

2

## **Dividends BNB rewards**

Hold of ZillaDoge automatically earns BNB rewards.

3

## **Intelligent Buy Back System:**

Our ZillaDoge buys back tokens on psychological levels, sends them to burn wallet and fills the liquidity pool.

4

## **For game payment**

You can use ZillaDoge to make in-game payments.

5

## **ANTI SNIPER BOT SYSTEM**

We are protected against sniper bots by our anti-whale system and our code.

6

## **Token Burning**

Less tokens in circulation results in an automatically increasing price.

7

## **World class team running the project**

Massive worldwide PR booked and paid for.

## ZillaDoge Tokenomics

Our mission is to build a trusted, friendly and stable blockchain financial ecosystem.

The following token utilization is to demonstrate how we are preparing for a long run plan:

ZillaDoge
